# Manage it all with ease

Hosted Services Portal

The Hosted Services Portal is revolutionary by centralizing all of your communication and hosted services into one user-friendly site that can be accessed from anywhere. Unlike other customer portals, both you and your employees can make changes to your system and your account in real-time, from a single, intuitive dashboard featuring easy-to-use, widget based architecture that integrates you with all of our Hosted Services products, services and support.

Easily access and manage all of your communications from anywhere, on any device.

One click to...

- Listen to business voicemail from anywhere
- Customize permissions to let employees self-manage
- Re-route calls from wherever you are when the office closes unexpectedly
- View the availability of co-workers, then just click-to-call them
- Make company-wide changes at once, in seconds
- Chat instantly with anyone in your organization

Unmatched visibility, control and functionality, right at your fingertips.
